REGISTRATION REQUIREMENTS
Pedigree

1. Stallion Reports are REQUIRED
2. Any foal born in 1994, or after, must be DNA typed for parentage verification. Sire and dam will also have to be DNA typed. Should the horse(s) have DNA typed previously, with TWHBEA, the owner will need to send a copy of the DNA results and the front and back of the TWHBEA registration certificate, which must be filed with the RHBAA. If unable to provide TWHBEA DNA Results, please complete the DNA Collection Form, attach hair, and mail with the Registration Application and appropriate fees.
3. The horse must be the progeny of a registered Racking Stallion and a Registered Racking Mare
4. Block # 10 & 11 are REQUIRED to be completed entirely in ink, before the application can be processed.
5. Transfers are required with the application for registration of foals when someone other than the owner of the foal owns the dam at the time the application for registration is submitted. Transfers must be attached to such applications, date of purchase required, and fee paid for both registration and transfer.

REGISTRATION REQUIREMENTS
One-Sided Pedigree

1. Stallion Report is not required. The signature of the Stallion (at time of service) or the signature of the Dam (at foaling time) is REQUIRED. The signature of the registered RHBAA parent acts in lien of a Stallion Report.
2. Block # 10 & 11 complete the fields for the RHBAA registered parent, leaving the fields of the unregistered parent blank. The signature of the owner (sire, at time of service or dam, at time of foaling) of the RHBAA registered parent is required.
3. Any foal born in 1994, or after, must be DNA typed for parentage verification. The RHBAA registered sire or dam must be DNA typed. Please complete the DNA Collection Form, attach hair, and mail with the Registration Application and appropriate fees.
4. The horse must be the progeny of a registered RHBAA Stallion or a registered RHBAA Mare. Upon receiving a Certificate of Registration for the horse being registered, RHBAA does not make claims that the horse being registered possesses breed standards, the certificate solely verifies the parentage of the one-sided pedigree.

REGISTRATION REQUIREMENTS BY QUALIFICATION
Commissioned Registration

(Horses/Foals eligible for Pedigree or One-Sided Pedigree Registration are ineligible to be Commission Registered.)

1. (Examination) Horses meeting the performance qualifications must be personally inspected and approved by a qualified commissioner designated by the RHBAA to determine that the horse performs the "rack" as defined in the Bylaws.
2. All horse foaled January 1, 1994 or after must be DNA typed in accordance with the requirements of the RHBAA in order to be qualified for registration.
3. If a horse is being Commission Registered with RHBAA and has already had DNA completed by TWHBEA, we will accept this DNA due to an agreement with TWHBEA. In addition to the RHBAA Registration Application, you must provide us a copy of the front and back of the horse's TWHBEA registration papers.
